

Hand-held Telescopes

For greater mobility

It is frequently the little things that make it almost impossible to be mobile without the aid of a visual device. Details in the distance and close-up such as street names, house numbers or bus schedules simply cannot be read. Small, inconspicuous hand-held telescopes from Carl Zeiss provide you with added safety and confidence when you are out and about. On a strap around your neck or in your jacket pocket, they are always ready and waiting to be used anywhere and everywhere.

They provide a large field of view and feature coated optics – all in a practical, attractive design.

ZEISS is one of the world's leading manufacturers of spectacle lenses, and is committed to delivering maximum precision and comfort. ZEISS designs and produces lenses, instruments and measurement systems,
